BRASS BALL VALVES COVERED BY INTERNATIONAL INSURANCE FOR CUSTOMER SAFETY

Rubinetterie Bresciane Bonomi S.R.L. are pioneers in the field of brass valves & check valves. While being international leaders in the field, they enjoy approvals from all leading gas associations through out the world.

These valves are exported from Italy to over 80 countries. The range covers valves for applications viz. air, vacuum, water, oils & steam condensate. RB brass valves can easily replace conventional gate valves, as they are quick operating, leak tight and maintenance free.

These valves are being widely used in Breweries, Thermal Power Plants, Automobile, Pharmaceutical, Beverage, Airconditioning, Fertilizer and other Allied Industries.

In India RB valves are available through a wide stockist network covering all the states.

Factory Mutual Research

Underwriters Laboratories Inc.

American Gas Association

RB BALL VALVES

1. Quick operating, quarter turn lever operation.
2. PTFE seat, thrust washer, stem, seat & PTFE gland packing ensure zero leakage.
3. PTFE internals ensure that valves do not jam, Even if they are not in operation for a long period of time.
4. Maintenance free.
5. Robust design with few moving parts.

CONVENTIONAL GATE VALVES

1. Multiturn operation.
2. Metal to metal seating leads to inevitable leakage around the seat.
3. Metal seating in gate valves is suspect to poor quality & erosion, leading to jams if left out of operation.
4. Gland packings etc. require timely repairs.
5. Stem breakage & damage to yoke threads is a common phenomenon in gate valves.

ARTICLE	SIZE RANGE	MAX. COLD WORKING PRESSURE BAR	APPLICATION
1501/1510	1/2", 3/4", 1" 1 1/4", 1 1/2", 2" 2 1/2", 3", 4"	30 25 16	Replaces gate valves. Suitable for industrial, pneumatic, domestic and hydraulic installations. Suitable for water, steam condensate and air lines.
1710 (Steel Handle)	1/4", 3/8", 1/2", 3/4", 1" 1 1/4", 1 1/2", 2"	30 25	Replaces gate valves. Suitable for industrial, pneumatic, domestic and hydraulic installations. Suitable for water, steam condensate, air, gasoline, diesel, gas and LPG.
1720 (Butterfly handle In Aluminium)	1/4", 3/8", 1/2", 3/4", 1"	30	Approved by Various International Gas Associations like SVGW, DVGW, Canadian Gas, American Gas. Also approved by Factory Mutual Research, Underwriters Laboratory etc.
3210 L	1/4", 3/8", 1/2" 3/4", 1" 1 1/4", 1 1/2", 2"	25 16 10	Diverter full bore valve for air, water, oil & gas.
3500 T	1/4", 3/8", 1/2", 3/4" 1" 1 1/4", 1 1/2", 2"	30 16 10	Full bore 3 way valve for air, water, oil & gas.
3830/3831/3837	1/8", 1/4", 3/8", 1/2"	10	Instrumentation lines, with pressure gauges.
100000	3/8", 1/2", 3/4" 1", 1 1/4" 1 1/2", 2" 2 1/2", 3" 4"	40 25 16 12 10	Suitable for water and air application in industrial & domestic usage
100100	3/8", 1/2", 3/4" 1", 1 1/4" 1 1/2", 2" 2 1/2", 3" 4"	40 25 16 12 10	Suitable for water suction pipe lines. Can be used with fuels like kerosene & gasoline etc.
110000	1/2", 3/4", 1" 1 1/4", 1 1/2", 2" 2 1/2", 3", 4"	10 10 10	Domestic & industrial plumbing application in rigid pipe lines
300000 (EXPO)	1/2", 3/4", 1"	PN - 40	For pressure reduction in plumbing for high rise buildings etc.
300100 (EURO)	1/2", 3/4", 1" 1 1/4", 1 1/2", 2"	PN - 40	
600000	1/2", 3/4", 1"	10	Domestic & Industrial plumbing applications.
600700	1/2", 3/4", 1"	10	

Manufactured by :

RUBINETTERIE BRESCIANE BONOMI S.R.L.

VIA Industriale, 30 P.O.Box 31
